## SUMMARY

An Information Technology Professional seeking challenging opportunity to work for an organization to enhance my knowledge and professional skills in the field of programming and a long-term career with opportunity for career growth by making my contribution for development of an organization.

## EXPERIENCE

**Python Developer**, Crescentweb (4 week)

March 2023-April 2023

Variables, Data Types, Operators, Control Statements, Loops, Function, OOPs Concept

- **Variables:** Understanding how to store and manipulate data by assigning values to variables.
- **Data Types:** Knowledge of different data types in Python such as integers, floats, strings, lists, tuples, dictionaries, etc., and how to work with them.
- **Operators:** Mastery over various operators like arithmetic, comparison, logical, assignment, etc., to perform operations on data.
- **Control Statements:** Ability to control the flow of execution in a program using control statements like if, elif, else.
- **Loops:** Understanding how to execute a block of code repeatedly using loops like for and while loops.
- **Functions:** Proficiency in defining and using functions to modularize code and make it reusable.
- **OOPs Concept:** Knowledge of Object-Oriented Programming (OOP) concepts including classes, objects, inheritance, polymorphism, encapsulation, etc. This allows you to organize code into objects and classes, making it more maintainable and scalable.

## PROJECTS

### Html Project

- Developed a personalized hotel website utilizing HTML to facilitate online food ordering, room booking, and table reservation. Designed to provide comprehensive hotel information, enhancing user experience and accessibility to services.

### Html Project

- Crafted an immersive event management website using HTML, enabling users to book specific events, browse available services, and access detailed event information. Streamlined interface enhances user experience and promotes seamless event planning and coordination.

### Bootstrap Project

- Engineered an online home decor shopping platform using Bootstrap and HTML. Facilitated seamless browsing, cart management, and secure purchasing. Enhanced user experience with detailed product descriptions, fostering informed decision-making and satisfaction.

## TECHNICAL SKILLS

- C, C++, Java, OOPS Concept, HTML, CSS, JavaScript, Able to grasp new concept, Team oriented personality

## EDUCATION

- **B. Tech in Information Technology**

Dr. Babasaheb Ambedkar Technological University

Appearing

- **Higher Secondary School 2022**

Shri Vidyawati Deodia Vidyalaya & Junior College (82.67%)

Jun 2020 – Feb 2022

- **Secondary School 2020**

Super Star English High School (84.80%)

March 2022

## **ACHIVEMENTS**

---

- Secured second position in presentation in college
- Participate in aptitude compition
- Paricipate in International Conference
- Paricipate in MSIC

## **DECLARATION**

---

- I hearby declare that all the above information is true and correct to the best of my knowledge
